

I see my PRIMARY role as assistant governor:	The thing I am most looking forward to next year as Assistant Governor is:
Give info from the DG to clubs, contact clubs at least 4 times a year to assist, inspire, help them to want to grow.	It's my third year. Assisting DG Wayne have a great year with great Rotarians and see the results of hard work with Community and Int'l projects make a difference in 1000's of lives.
Assisting clubs when problems or questions arise.	Encouraging clubs and taking a more proactive approach.
to assist my clubs to work with Rotary, and my governor to communicate with my clubs	Assisting the clubs
Intermediary between the DG and my club Presidents and to assist the Presidents as they need.	Try to encourage each club Pres. to be onboard with District and RI programs and initiatives.
Assisting wherever I can.	Being more confident in my visits to other clubs.
Assisting the district governor and acting as a liaison between my clubs and the district governor	Visiting my clubs and spreading the word about rotary and the district
support my assigned clubs	meeting new friends and building relationships
As Dean communicating effectively with my 10 A,G 's	Visiting more clubs in the district.
Communicating - help Club leaders 1) know what is going on across the District 2) be the most effective they can be and 3) share ideas, projects and fund raisers	The people - Working with fellow Rotarians is the most fun and rewarding activity
Liaison with District, help Club Officers and Members to navigate RI and help find answers to questions.	Getting to know the incoming officers and helping them.

My biggest challenge as an AG so far has been:	My biggest reward so far as an AG has been:
Work conflicts. Time to get to Area events with clubs .	Being able to meet more Rotarians at the different clubs. Helps to encourage each other.
Merging two clubs. International was no help, and there's no protocol.	Being a part of the wonderful things my clubs are accomplishing.
not having the tools required to assist my clubs	Helping clubs achieve their goals
Not enough rank and file members are aware enough of what Rotary and the Districts role is all about	To get to know the clubs and many members through presence and involvement.
Getting to my clubs because of the weather.	Seeing how well my clubs are doing.
Working with presidents who are non communicative and don't reveal information received from int'l and district	Learning what rotary means to the club members and an appreciation for the uniqueness of each club
getting clubs to understand the district is there to support them, not spy on them	new friendships
Visiting the clubs on the U.S. side of the district.	Meeting all the hard working Rotarians in the district, so many great projects.
watching a Club die	Getting to know some wonderful people.
Helping officers to motivate their members to become more engaged in their clubs.	Attending club meetings and getting to know not just the officers but also the members.

When I became an AG, I wish I had known:	As a new or soon-to-be AG, I am unsure about:
About leadership training- "RYLA" for AG's and Presidents.	how to help clubs that don't see a problem or want any assistance
The time requirements and increasing responsibilities and costs required.	Can we get reimbursed for meeting expenses? i.e., mileage to our clubs, meals? Also I submitted a form for PETS, and have not yet been reimbursed. I am newly retired and trying to live within my Social Security. 😊
more about the goals of the governor	Most everything I will be responsible for...
More about my role and the expectations for that role by the DG	Will we have regular scheduled meetings with other AG's in our District, &/or with our DG? It might be nice to have a Facebook page for AG's and the DG of our District in order to share ideas and keep the flow of communication open.
The proper way of being introduced as the new AG	filing end of year reports online
You don't always have to be their speaker. You can set back and enjoy the meetings	
the level of distrust the average member has toward the district	
More about each club and what their special projects are.	
I wish I had had an AG Mentor	
How difficult it would be to help club officers to convince members to become more engaged.
