

October Updates

Hello Fellow PETS Organizers,

Now that we are moving closer to the PETS season, we are finding the deadline for the decision on whether to go virtual or live is leaning towards going virtual. This has created a hardship for those having to deal with the last-minute details of a virtual format. We are offering a webinar lead by Ken Morgan specific to this challenge, and I am planning on doing a follow-up session on November 4th to go over the same.

We are looking into videos of potential Rotary leaders to have on hand if any of you would like to use one of their messages including RI PE Shekhar Mehta for your events.

We are planning on going back to a live Annual meeting in July for 2021, which will also be video taped so we can serve more members and have this available for your committee members also to view. We have tentatively added a few more days for potential webinars if you have any suggested topics you would like to discuss. I have included our Steering Committee meeting dates in case there is something you would like us to consider in the future.

Check out the Rotary PETS Discussion Group as it is another way to discuss specific topics.

This pandemic may have created a new way of training that we never anticipated before, and I am positive there will be changes in our formats and the way we will be educating our PEs in the future. We are in a time where PETS will see many dramatic changes, and we need to work together to use these changes to benefit Rotary and our many clubs.

Please visit our website and take the time to confirm your information is correct.
